

Benefacts funders' priorities

Agreed in Q2 2015 to indicate the relative value attaching to each aspect of what Benefacts was expected to deliver, from the perspective of the company's three principal funders 2015 - 2018.

DELIVERABLE	Dept of Public Expenditure & Reform	The Ireland Funds	The Atlantic Philanthropies
<p>Information and understanding The public, donors and other stakeholders can better understand/support the work of nonprofits by having ready access to comprehensive information</p>	5%	40%	30%
<p>Public confidence and trust The public can see where public money is being spent in their name</p>	10%	10%	40%
<p>Policy intelligence Fundors, policy-makers and other external stakeholders have an accessible source of high-quality financial and governance data* on the sector which will reduce oversight costs, support more effective decision-making and assist Government in designing and delivering better services that support the goal of achieving the best possible outcomes for services users. (*collected consistently over time, allowing cross-organisational, cross-sectoral, international and trend-based analysis, plus other bespoke reports)</p>	50%	25%	10%
<p>e-Government Nonprofits and their stakeholders can specify web-based services that will simplify regulatory/grant compliance, reduce transaction costs, and otherwise facilitate business relationships using ICTs</p>	10%	-	10%
<p>Business intelligence The sector itself has access to reliable data helping individual nonprofits, and their umbrella/representative bodies to make better-informed business decisions, improve their access to donors, services and markets</p>	5%	25%	10%
<p>Reform Agenda Support various actions as set out in the Public Sector Reform Plan and Civil Service Renewal, e.g. commissioning, open data and better data management (see action 22 and 24 in CSR)</p>	20%	-	-
